

## Kansas Open 2013 Report

This is brief report to be followed by a much more detailed report at a later date: Plains Chess. Especially more pictures.

The 2013 Kansas Open was held July 12<sup>th</sup> to July 14<sup>th</sup> at the Holiday Inn off East Kellogg in Wichita, KS. There were three tournaments: the Blitz, the Bughouse, and the Main tournament that was broken down into Open and Reserve sections. Attendance for this year's tournament was good. There were 36 players in the **Blitz**, 6 teams in the **Bughouse**, and 39 players in **Open** and 72 players in the **Reserve**. The 111 players for both Open and Reserve is the highest total since 121 participants in the 1991 Kansas Open in Overland Park according to Ralph Bowman.

The **Blitz** was won by Conrad Holt with a perfect score of 5 wins and no losses. There were many with 4 wins and 1 loss including Brian Yang, Thomas Braunlich, Tim Steiner, Abhishek Mallella, and Stanley Capps. First place Class B was a four way tie with Rick Hodges, Mohammadresaja Hajjarbabi, Terry Wright, and Garland Heyen all having 3.0 points out of 5. Dinko Skerlev was first place Class C and below with 3.0 points.

For the Blitz there were three scholastic plaques handed out: Apramay Mishra had 3.5 points, Joshua Fernandes had 3.0 points, and Kiana Hajjarbabi had 2.0 points.

The **Open section** determines the new Kansas Champion. And, the new 2013 Kansas Champion and also overall champion for the Open section was Conrad Holt with 5 wins in 5 games. At 4.0 points and by himself was Missouri player Bob Holliman. Sharing Class A and below first place prizes in the Open section were Kansas player Jason Wawrzaszek and Oklahoma player Howard Zong with 3.5 points.

The Open section had a lot of out of state players with 8 players from Missouri, 7 players from Oklahoma, 5 players from Nebraska, 3 players from Russia, and 1 player from Nevada out of 39 total players in the Open section.

The **Reserve section** was a tie between Kansas players Kaustubh Nimkar and Peter Bradshaw at 4.5 points as a result of their last round draw against each other.

Winning the Reserve section class C first place was CJ Armenta at 4.0 points. For class D and below section there was a two way tie for first with class D player Gabriel Purdy and unrated player Marshal Lusk both scoring 4.0 points.

Scholastic plaques were also presented in the Reserve section. Joshua Fernandes was first at 3.5 points. He won on tiebreaks over Steven Burgoon who also had 3.5 points. In third place was Kyle Tran with 3.0 points.

The **Bughouse tourney** was held July 12<sup>th</sup> immediately following the Blitz. There were 6 teams. After the 5 round robin tourney there was a tie between the team of Ben Gradsky-Tony Dutiel and Conrad Holt-Abhishek Mallela, each having 1 loss out of 10 total games played. Then there was a three game playoff with the team of Holt-Mallela winning 2 games to 1.

Following is the last round game score between Conrad Holt and Tom Braunlich from Oklahoma followed by some pictures. As stated a longer report with a lot more pictures and games is to follow in Plains Chess.

Tourney director CJ Armenta with new Kansas Champion Conrad Holt

Tom Braunlich from Oklahoma (Conrad's last round opponent in the Open)

Dear friends,

The following is a link to view all 73 pictures taken on my camera at the 2013 Kansas Open. Double click on link. I think you can copy the pictures you like. There is also a slide show you can look at. Press ESC to end slide show.

Sincerely,  
Laurence Coker

39.a4 Rd6 40.Kf3 To Tom Braunlich's credit, he had Holt thinking deeply  
during the last part of the game that I saw - at a time when Tom was  
already short of time - and in what was still a dead-even position. I  
assume Holt was thinking about the best way to try and convert his  
drawish position into a win - the best way to give Tom chances to go  
wrong. It was very interesting to watch Holt think. I have never known a  
grandmaster to be so visually expressive regarding the apparent results of  
his analysis of some contemplated line of play. It appeared that at times  
that a line of play that Holt was analyzing would end up with disastrous  
consequences for Holt, or at least would not achieve his objective of  
winning - and you could see Holt telegraph this conclusion by the emphatic  
shaking of his head or the almost audible "no, no, no" seeming to appear  
on his lips. --- Judson Temple **40...Rxd5 41.Be3 Bd8 42.Ke4 Ke6 43.Rg1

Kb7=] **50.Rg6 Rf7 51.Rh6 Bd8 52.Rd6+ Kc8 53.Rc6+ Kb7 54.Kxe5 Bc7+  
55.Ke6 Rh7 56.Rc4 1-0** Judson Temple also notes: Tom essentially**

played Conrad dead even for most of the game. But Tom had used up  
most of his time and Conrad had not. So in time pressure with a tricky  
rook, bishop and pawn endgame still in play, Tom missed the drawing  
move available to him (according to grandmaster post-game commentary)  
and dropped a pawn giving Tom a theoretically lost endgame and with  
essentially no time remaining on Tom's clock, forcing him to play out the  
remainder of the game taking no more than 5 seconds for each move.

Tom didn't even try. He simply resigned. So essentially, Tom lost on the  
clock - not on the board. He just didn't analyze quickly enough to be able  
to compete for an entire game against Conrad Holt. <Holt agreed that  
Braunlich would have had better chances for the draw with +30 spm>
